2nd November 2021

Dear Parents and Carers of Year 4

Year 4 Science Resources - Term 4 2021

This term, in Science and Technology, Year 4 has been continuing their learning on forces. Over the coming weeks Year 4 will be designing and making a Rube Goldberg Machine to demonstrate their understanding of forces and the design process. We ask that students continue to bring in recycled and found objects that they can use to create their machines during class time.

On Monday 8th November Year 4 will spend the day creating their designs. Due to the nature of the day we ask that students wear their sports uniform to allow greater flexibility in their movements throughout the day.

If you have any questions please contact the Year 4 teaching team.

Emma Francis, Kate Mitchell and Vanessa Goldstein
